

UK Laser Association

Changes to National Open training

Issued by James Gray, UKLA / RYA National Coach

29th January 2008

After the last weekend's training a number of factors have become clear and it is necessary to amend the training schedule and opportunities available for the rest of this season's events.

It is with regret that I have to cancel all further Standard rig training. The number of sailors wanting to take part is insufficient to be able to support the extra coach and boats needed to give a satisfactory level of training. Everyone who signed up for these weekends has been contacted and outstanding monies will be returned by Dot as soon as possible.

The National Open Training weekend, 16th & 17th February, at Weymouth is now a RADIAL only event and is FULL.

The National Open Training weekend, 8th & 9th March, is now a Laser 4.7 ONLY event. The venue has yet to be confirmed. Please contact me for more details.

Looking further ahead the National Open Training due for 26th & 27th July at Weymouth is CANCELLED. This will now be a RADIAL SQUAD ONLY event.

I normally attend these Training weekends when I can, but I do have other commitments. However the coaches that are provided are always the very best that are available and I hope that members attended the weekends so far have found them to be instructive.

Between 31st Jan. & 16th Feb. I can only be contacted by email at
