

Laser 4.7 Summer Training

Here are some details of training being held around the UK during the summer months.

Please support these programs, be demanding of the coaches, ask all your questions about the boat, performance, events, etc. but you must enjoy your sailing. These days are low pressure in small groups with time to answer and explain.

The venues are spread around the country so that nobody should have to travel excessive distances, all training is by qualified Laser sailors / coaches and supervised by the management of the venue.

This is ideal training for Optimist and Topper sailors looking to transfer into the Laser 4.7 fleet.

Keep watching this website as more training will become available and I shall post information.
