LASER 4.7 WORLDS – ROYAL VARUNA YC – THAILAND

RACE DAY 4

The prevailing SW arrived on cue today with the fleet setting off into 14 Kts but this time with wind over tide from the first start which produced a confused 1.5m swell/chop. The wind dropped for a time to 12Kts but then increased to 18Kts by the end of the second race.

George kept true to form scoring 18 and 21 and is now 19th overall. Consistency is paying off

Andy started with a 39th but had a much better start in Race 8 and finished in 28th. Overall he is 41st.

The U16 boys did not have a good day. Ross finished race one in 12th and Aaron in 18th only for both to get no gun both being OCS under the pseudo black flag one minute rule being operated here this week. They were two of six caught by the PRO. Aaron was 20th and Ross 22nd in race two. Overall Ross is now 18th and Aaron 22nd.

4 races to go still much can change.
